*Find out more about our products*

Our love for life, family, friends, and healthy food has inspired us to create *fine stoneware collections* that combine quality and design with the best techniques in ceramic craftsmanship.

We produce *innovative and sustainable stoneware* made from the best natural resources in Portugal.

We embrace *handmade* and preserve our *European heritage* in manufacturing our stoneware collections.

# From tableware to moments, *inspire your table.*

At our core, we believe that a beautifully set table brings people together. More than just tableware, our collections create spaces where family and friends gather, share stories, and build memories that last a lifetime.

From stoneware to linens, flatware to glassware, we design not just for the moment, but for the memories that follow - always with sustainability in mind. Crafted with care and conscious materials in Portugal, our products honor European tradition and the environment, so that your moments are as lasting as they are responsible.

## Every detail, perfectly curated

### Flatware

Crafted in Portugal from high-quality 18/10 stainless steel, our flatware offers durability for everyday use. With a variety of finishes and designs, it suits any table setting, combining style with long-lasting performance.

### Glassware

Our glassware, made with purpose in Europe, tells a story of tradition and innovation. From mouth-blown glass to machine-made techniques, each piece reflects thoughtful craftsmanship. For those who care about the planet, we offer recyclable glassware designed to minimize environmental impact.

### Linens

Crafted from the finest natural fibers in Portugal, our linens are sourced and produced through sustainable methods. We proudly support small and family-owned businesses, certifying that each piece reflects quality, care, and a commitment to people and the planet.

### Cork and Wood Collections

Portuguese cork, a highly sustainable material, is harvested without harming the tree, while our premium oak wood is renewable, biodegradable, and non-toxic. Each piece varies in tone and grain, making it uniquely yours. These natural elements reflect our commitment to blending design with nature and honoring the landscapes we cherish.

# *Sustainable Stoneware* *Sustainable Industry*

We manufacture in **Portugal**, using the best local natural resources, which minimizes our ecological footprint.

Our original formula results in a unique ceramic body with a special bonding between the clay and the glazed surface, making our products more durable – as they are resistant to thermal and mechanical shocks. This means our stoneware doesn't chip or scratch easily, and it can withstand high temperatures. It also means it has a longer lifespan, compared to more fragile ceramics, reducing the frequency of replacement and the associated resource consumption.

## Eco-design

Our designers play a key role in promoting sustainability in stoneware manufacturing. We minimize the environmental impact of our products by considering form, ergonomics, aesthetics, and durability, while **optimizing the use of resources** like clay, glaze, energy, and water. All products are made to be eco-friendly, reusable, and recyclable, with minimal waste during production.

## Packaging

Our packaging is 100% plastic-free and recyclable, using only non-hazardous dyes. To reduce waste, we developed **Ecocard**, made from crushed internal cardboard waste, used in 15% of our boxes. All our boxes are FSC certified (75% recycled cardboard), sealed with recycled paper tape, and designed to be reusable.

## Ethical Business Practices

We are committed to high ethical standards across all operations, ensuring full compliance with EU regulations. Regular audits, conducted by both official regulators and independent auditors, verify these standards. We also ensure that all employees receive **fair wages** above the required minimum.

## Energy efficiency

We prioritize **energy efficiency** by harnessing 1180 kW of solar power, enabling our newest factory to run entirely on self-generated energy during daylight. The remaining factories operate with a combination of solar and other renewable sources. Our kilns are 15% more efficient than even the most energy-efficient kilns on the market, thanks to our innovative closed-circuit system that reuses heat. Additionally, our single-firing process further minimizes energy consumption and CO2 emissions, and we are leading the way in Europe by testing hydrogen-powered firing at an industrial scale for utility ceramics.

## Waste management

The waste we generate is mindfully managed. 99% of our waste is either recycled or reused within our production process. **We transform excess materials into new products** and recycle waste from our factories back into new stoneware. With **Ecogres®**, we created a new material made from recycled clays and glazes, as well as waste materials from nearby industries.

## Water treatment

In addition to our reducing consumption practices, 100% of our water is carefully treated and reused for internal cleaning processes or reintroduced in our production process.

Each one of our four factories is equipped with an industrial **waste water treatment plant**, complying with EU standards. We recycle all of our factory's excess clay into brand new dinnerware, therefore limiting transport emissions.

# Our Factories in Portugal

Local craftsmanship with a global impact

12

As a leading Portuguese stoneware manufacturer, we proudly oversee a portfolio of four exceptional factories, nurturing two distinguished brands: COSTA NOVA and Casafina by COSTA NOVA.

The story of COSTA NOVA Group began in 1998 with the founding of our first factory in Vagos, Portugal. Since then, we have been dedicated to crafting beautiful fine stoneware. Today, our products and brands reach customers across five continents and are featured in some of the world's most celebrated stores, restaurants, and hotels.

# Innovation

Shaping the future of ceramics

Many hands touch each of our stoneware products. While our four factories are equipped with state-of-the-art technology, the manual process still reigns supreme.

13

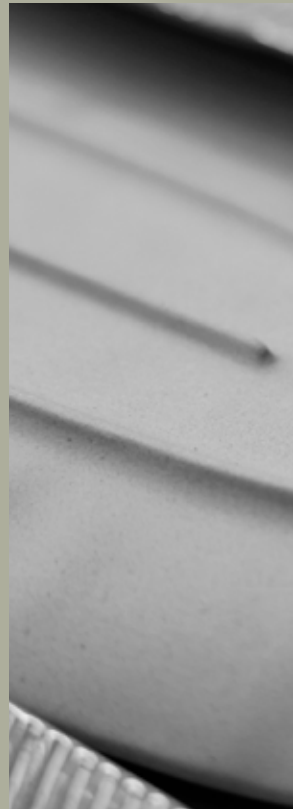

Through continuous investment in innovative processes, we've pioneered unique products, shapes, and glazes, and even developed our own recycled ceramic, Ecogres®. Innovation defines who we are.

# ECOGRES<sup>®</sup>

*From the earth, for the Earth*

14

COSTA NOVA focuses on researching and developing sustainable products and manufacturing technologies. In this commitment to creating solutions that contribute to a more sustainable future, COSTA NOVA has developed a new raw material, by collecting, recycling, and reusing clays and glazes from its own operations, as well as other waste materials from neighboring industries.

The result is Ecogres<sup>®</sup>, a completely eco-friendly, reinvented clay made of recycled materials. In 2023, with a focus on reducing the environmental impact of tableware production, COSTA NOVA opened the Ecogres - Cerâmica Ecológica factory in Aveiro, Portugal.

COSTA NOVA is highly focused on researching and developing *sustainable products* and manufacturing technologies.

15

Considered a factory ahead of all ceramic factories, Ecogres - Cerâmica Ecológica presents one of the world's most advanced energy-efficient industrial facilities.

Our ecogres collections take sustainability to their highest level, telling a unique story of how tableware can be made of recycled materials while remaining beautiful, durable, and functional at the same time.

All collections that are made of ecogres are highlighted on the Index page and labeled with our ecogres logo.

# BRISA

---

The warm breeze that blows from the east and cascades along the Algarve coast with fruity aromas and the flavors of Ria Formosa was the inspiration for this collection. The blended white and blue glazes and organic shapes transport us to the intricate landscape of lagoons, canals, salt works, and sandy beaches stretching across deserted islands. Brisa adds light to every gathering and turns any table into a memorable experience.

*by Carsten Gollnick*

---

For his first collaboration with COSTA NOVA, the renowned German designer Carsten Gollnick took inspiration from the aesthetic world of Portuguese Atlantic coast, and created a distinctive tableware collection in fine stoneware. The remarkable color contrasts and structures of the Portuguese Atlantic coast, especially the border between water and land, was his source of inspiration.

# NOVA

---

COSTA NOVA's iconic Nova collection stands out as a symbol of beauty and authentic craftsmanship. This collection draws inspiration from nature's organic shapes, with fluid lines and asymmetrical forms that mimic elements such as tree bark, seashells, and other natural materials. The result is a range of dinnerware that reflects the honest simplicity of the natural world, making each piece unique. The collection features translucent glazes accentuated by hand-brushed rims, enriching its distinctive aesthetic. The COSTA NOVA logo on each piece serves not only as a decorative element but also as an emotional emblem of the brand's heritage.

Fine stoneware, glossy glaze. *Made in Portugal.*

# PEARL

---

The Pearl collection was inspired by the richness of 18th and 19th century European ceramics. The round shapes, beautifully embossed with a beaded edge were reinvented to create a new classic concept, bringing a touch of European traditional elegance to the table that will never go out of style.

Fine stoneware, glossy glaze. *Made in Portugal.*  
Photographed in *Quinta da Comporta, Comporta (Portugal).*

# RODA

*by Torres Euracini*

---

Roda is a modern and elegant collection by Torres Euracini. Each piece is thoughtfully designed to exceed expectations in adaptability and efficiency. The word “Roda” originates from the Latin “rota,” used by the Romans to describe things that move in circles. In Portuguese, “Roda” refers to any circular formation or gathering, symbolizing the act of bringing people together. According to the designer, this concept inspired the collection’s name: “By gathering everyone around the table, in a circle of friends, we awaken the joy of sharing flavors, experiences, and stories filled with emotions and shared memories.”

Fine stoneware, glossy reactive glaze (BRA), matte reactive glaze (ARD). *Made in Portugal.*

# ROSA

---

Inspired by the Romantic period, the Rosa collection flows with the reflection of love. The feminine cutouts and silhouettes create a sense of contemporary, casual elegance, achieved by a manual process. The hand-painted rim and edges bring these classic elements to the forefront, allowing them to be reimagined through a modern perspective. Pure and simple cherished memories leave us enchanted at every gathering.

# OUR COFFEE STORY

---

Coffee has a deep-rooted history in Portugal, dating back to the 18th century. The café culture in Portugal is about more than just the coffee itself; it's about socializing, spending time with friends, and enjoying the relaxed atmosphere of the local cafés.

It's a cherished tradition deeply ingrained in the Portuguese way of life. At COSTA NOVA, we hold a deep appreciation for coffee's global significance in various cultures throughout history. Over the years, we've crafted a wide array of coffee cups in diverse shapes, colors, and collections to celebrate every coffee moment.

# GRESPRESSO NATURE

This eco-friendly trio was designed with sustainability in mind. Grespreso Nature features three espresso cups and three lungo cups, each beautifully presented in three colors. What sets these cups apart is their unique combination of raw materials and of unglazed and glazed surfaces. Two of these cups are made of ecogres, while the third is made from stoneware, recognized as one of the most sustainable ceramics globally. This trio will pleasantly surprise guests with a touch of contemporary good taste.

Recycled stoneware (WSL and WSN), fine stoneware (WNT), glossy glaze (interior), unglazed (exterior).  
Handcrafted pieces, available in three different colors. *Made in Portugal*

# POTERIE

---

The Poterie Coffee Cups are a new chapter in our Coffee Story narrative. Each cup presents a reactive glaze that is attentively applied to the edge, allowing the glaze to drip naturally down the sides, resulting in a finish that makes every piece unique. In Portugal, where coffee breaks are valued, this artistic and carefully controlled - yet delightfully unpredictable - decoration process guarantees that each cup tells its own story, much like the conversations shared over a warm espresso.

Fine stoneware, glossy reactive glaze (LAT), matte reactive glaze (MOC). *Made in Portugal.*

## SPECIAL FEATURES AND HIGHLIGHTS

- Rustic, casual cups inspired by traditional French pottery designs.
- Combination of distinctive reactive and matte glazes that create unique color variations.
- The Poterie espresso cups feature a concave interior design that promotes the smooth blending of coffee and crema, retains warmth, and offers a visually appealing presentation for a richer espresso experience.

# & OTHER COFFEE CUPS

---

We've gathered an assortment of coffee cups from our diverse stoneware collections and assembled them within this section. Just as in Portugal, where you can savor coffee in various ways like 'bica' (a stronger espresso), or 'pingo' (an even smaller coffee with a drop of milk), or 'meia de leite' (coffee with milk), our selection of cups offers a variety of styles and shapes to suit your preferences.

# RECYCLED GLASSWARE

---

Crafted from recycled glass, these collections represent our commitment to sustainability and eco-friendly living. Each piece has incomparable, organic features like tiny bubbles and slight color variations, adding special character to your table. These details come from the recycling process, where glass bottles are repurposed and given a second life. They blend style with environmental responsibility, making them perfect for those who appreciate aesthetics and sustainability.

A glass dome is a valuable addition to any home. It helps preserve the freshness of baked goods for longer and provides an elegant presentation without the need to lift the lid. Not only does it prevent cakes and bread from drying out, but it can also be used to display cheese or fruits, giving a touch of sophistication to your counter.

**Coupole Glass Domes:** Lead and cadmium free crystalline glass. Mouth-blown glass. Cut rim. Large solid handle. *Made in Poland.*

# FRENCH & TERRY STRIPES

---

Stripes are a lively and classic choice for kitchen towels, infusing your space with a retro and vintage style. The French and Terry Stripes collections are made in Portugal from 100% cotton, perfectly complementing this aesthetic. Terry incorporates a classic terry weave in a yarn-dyed pattern, adding texture and durability. The cotton fabric makes these two collections soft to the touch and highly absorbent.

**French Stripes:** 100% cotton. Yarn dye (210 gsm). *Made in Portugal.*  
**Terry Stripes:** 100% cotton. Terry weave, yarn dye (400 gsm). *Made in Portugal.*

# CORK COLLECTION

---

Portugal produces around 50% of the world's cork supply. Harvested without harming the tree, cork is an eco-friendly choice, suitable for protecting surfaces while supporting sustainability. Cork pieces bring a natural warmth to the table, and beyond their aesthetic beauty, they offer countless practical advantages. Naturally antibacterial and water-repellent, cork resists moisture and prevents mold, making it the best option for kitchen use.

Cork (NT, IN and IG), Cork/recycled EVA (WBK and IND). Vegetable tanned leather (handle). *Made in Portugal.*

Our collection of cork placemats, coasters, and trivets are durable, lightweight, and comfortable to use, providing reliable protection for your table from heat and unwanted marks.

281

Cork is naturally heat-resistant and waterproof, making it an ideal material for placemats, trivets, and coasters. Its unique cellular structure, filled with millions of tiny air pockets, provides excellent insulation and prevents heat transfer, protecting surfaces from hot items while also absorbing moisture to prevent watermarks.

# PLACEMATS

---

This selection of placemats offers sustainable choices, including cork, linen, recycled cotton, and faux leather. Among them, the Joana collection stands out. Crafted on a loom passed down through generations in a family-run business, Joana is made from surplus textile industry fabric, preventing it from going to waste. Another highlight is Sela, made from bio-based faux leather, crafted from renewable, plant-based materials. Sela reduces environmental impact while offering the durability and aesthetics of genuine leather. Be sure to explore all our placemats to find the perfect sustainable addition to your home.

## CORK

Portugal harvests and provides approximately 50% of the world's cork supply. It is an eco-friendly product that is a natural choice to protect surfaces from heat and moisture. Its unique texture and pattern have become a chic accent for any kitchen or table.

Riviera Collection candles, crafted with 100% soy wax and infused with a high percentage of fragrance oil, offer a rich neroli scent. They exude a blend of floral and citrus notes, combined with the sweetness of honey and subtle hints of spice. The fresh aroma of neroli, derived from the blossoms of the bitter orange tree, creates a soothing ambiance. Plus, our candles are free from animal-derived ingredients, ensuring an eco-friendly choice. The soy wax also provides a longer burn time for your Riviera candles.

# USE & CARE

## Fine Stoneware

Not all stoneware is created equally. In fact, there is not a standard, universal definition of stoneware and the word is frequently misused to describe other ceramic products.

At our factories in Portugal, the ancient skills of modeling and decorating are combined with modern technology in a special process that produces high-quality fine stoneware products capable of withstanding everyday use over many years. Manufactured in a single firing system heated up to 1180°C (2160°F) our stoneware is very strong and durable. Its glazed surface is fully vitrified which gives it high resistance to both thermal and mechanical shock.

### *Oven, freezer and microwave safe*

All pieces manufactured in fine stoneware have high thermal shock resistance, withstanding temperature variations between -20°C and 250°C (0°F to 500°F). The maximum thermal variation advised is 180°C (350°F). All stoneware products can be safely used in the oven, microwave, and freezer.

#### **Recommendations:**

- Avoid placing pieces straight from the oven on a cold surface.
- Do not use stoneware over a direct flame.
- Avoid using products with **craquelé surfaces\*** in the oven or freezer (e.g., Cristal-Nacar, Dori, Lisboa, Madeira, Riviera and Elements-Algarve).  
\*Craquelé glaze is always reactive.

### *Dishwasher Safe*

All pieces are easy to clean and can withstand abrasive cleaners due to their high durability and low porosity. Most items are dishwasher safe for daily use.

#### **Recommendations:**

- Assure items don't rub or bump against each other in the dishwasher.
- Hand wash oversized or delicate pieces.

**\*PVD gold-coated** (Riviera and Taormina) stoneware items: Not safe for oven, microwave, or freezer. Hand washing is advised.

\*Lagoa metal's glaze should be protected by avoiding prolonged contact with acidic foods.

\*Nótos' Mill is not dishwasher safe.

### *Food Safe*

All COSTA NOVA products meet international standards, including those set by the U.S. Food and Drug Administration (FDA) for lead and cadmium, securing they are safe for food use.

## Craftsmanship

All COSTA NOVA fine stoneware products are hand-finished, giving them a unique character. Any irregularities, color variations, or small imperfections are signs of authenticity, not defects.

## Flatware

Made from high-quality stainless steel (18/10), all COSTA NOVA flatware collections are crafted for exceptional durability and suitable for everyday use. To maintain the original qualities, we advise some extra care:

- Remove food residues after each use to avoid prolonged contact.
- For manual washing, use hot water, neutral detergent, and a soft cloth or sponge.
- Do not use abrasive or mechanical aggressive agents.
- Place cutlery in the dishwasher's basket or tray, keeping knives separate from other pieces.
- After each dishwasher cycle, dry cutlery with a soft cloth.
- Pay special attention to knives, especially hollow-handle knives, as they are sharper and more prone to oxidation. Dry them thoroughly after washing.
- To restore shine and remove stains, use a soft cloth with a few drops of lemon juice.
- Special materials like Fibber/Resin or PVD should only be washed in the dishwasher, following specific instructions: use temperatures no higher than 60°C (140°F) and a detergent with less than 10% phosphates.
- Keep flatware in a dry place.
- Rehydrate resin handles with a moisturizing cream.

**\*Steak/Cheese Knives:** Dishwashing is not recommended for knives with wood handles. Wash by hand with a non-abrasive sponge and dry with a soft towel to prevent corrosion or spots.

## Glassware

COSTA NOVA glassware collections are made from either pressed glass or mouth-blown glass using semi-manual methods. Wine glasses, water glasses, and tumblers are dishwasher safe, but hand washing will extend their lifespan. To maintain the original qualities, we advise some extra care:

- Before dishwashing, rinse glasses in lukewarm water to remove any residues.
- In the dishwasher place glasses in the appropriate rack to avoid scratches. Set the dishwasher to 65°C (140°F) for washing, with a rinsing phase at 65°C (149°F), and a cycle of 90/120 seconds. Use the correct amount of brightener; too much can cause iridescence, and too little can leave water marks.

After the wash, open the dishwasher door slightly for 5-10 minutes to let steam escape and prevent halos on the glass due to condensation.

- Hand washing: wash glasses individually with a non-abrasive detergent, warm water, and a soft sponge or cloth.
- For drying use a microfiber cloth.

\*For **oversized** or **delicate** items (such as decanters, glass domes, Gomos and Sensa sprayed colored glass, and pieces from the Tosca recycled glass collection), hand washing is recommended.

## Table and Kitchen Linens

Made in Portugal from high-quality natural fibers, our linen collections are easy to use and care for. They can be machine washed and ironed according to each fabric's specifications.

### *Bio-Based faux Leather*

Contains 30% renewable plant-based content and incorporates copper nanoparticles with antibacterial properties.

### *Leather*

Handcrafted in Portugal, our leather accessories are vegetable-tanned using one of the oldest and most eco-friendly methods. This process results in durable leather that ages beautifully over time.

To maintain the original qualities, we advise some extra care:

- Wipe clean with a damp cloth.
- For maintenance, occasionally rub with appropriate oil.

## Cork & Cork/Recycled Eva

COSTA NOVA cork accessories are made from either 100% cork (Cork, Modern Storage and Redonda collections) or 20% cork/80% recycled EVA (Cork collection). Recycled EVA is a byproduct from sole production waste, making it a recycled and eco-friendly material. To maintain the original qualities, we advise some extra care:

- For daily cleaning, use a soft, dry cloth to remove impurities.
- When needed, use a moistened cloth, but do not soak.
- Store away from sunlight, moisture, and heat sources.
- Avoid strong alkalis, as they can dissolve cork.
- Although food contact is safe, avoid smoke odor and taste transfer.
- Do not place food directly on the surface.

## Wood

COSTA NOVA wooden accessories are handcrafted in Portugal from premium quality woods. Natural variations in tone and grain make each piece unique. To maintain the original qualities, we advise some extra care:

- Handwashing is recommended.
- Wipe wood pieces with a damp cloth; do not soak.
- Use mild dish detergent when necessary.
- To maintain the wood's original qualities, occasionally rub with food-safe mineral oil.
- Use boards and boxes for dry food only.
- Re-treat wooden items over time with food-safe wax or oil. Avoid scented oils, as it can go rancid. Walnut oil, flaxseed, coconut oil, and linseed oil are good options.

### **Additional care:**

- 01** Never place wooden accessories in the dishwasher or leave them soaking in water.
- 02** If edges become fuzzy after contact with water, lightly sand with fine-grit sandpaper and moisturize with wood oil or wax.

## Others

### *Metal*

Clean with a moistened cloth when necessary; dry immediately after cleaning to prevent moisture damage.

### *Horn napkin rings*

Clean with a moistened cloth.

### *Tea pot infusers*

Dishwasher safe, but hand washing is recommended. Rinse immediately after use to remove tea leaves, and wash as soon as possible. Avoid using harsh cleaning agents. Dry immediately after washing and store in a dry place.

### *Terracotta (earthenware)*

Handmade and hand-painted in Portugal by artisans, slight design and color variations are normal. Earthenware is low-fired and tends to "craze" with repeated use, which is natural and does not significantly affect the ceramics. Most items are dishwasher safe if handled with care, but handwashing will extend the product's lifespan. Not recommended for microwave or freezer use.
